KeySIM Promotes Rachel Chapman MsC to Head of Cyber Standards as Connections Surpass 15,000

Wednesday 4 November, 2026

KeySIM, a fast-growing specialist IoT SIM provider, has promoted Rachel Chapman to Head of Cyber Standards as its deployed connections pass 15,000.

KeySIM supplies IoT connectivity to organisations across the UK.

In her new role, Rachel will lead the company's work to strengthen its information security and business continuity standards.

Rachel recently achieved a master's degree in computer science and cyber security with distinction.

"Cyber security has never been more important," said Rachel. "I'm delighted to take on this role and contribute to KeySIM's continued success as we strengthen the standards that support our customers and our business."

Graham Robinson, Founder and Managing Director of KeySIM, said: "Rachel is outstanding and incredibly talented. Her expertise and commitment make her an excellent fit to lead this important area of the business. We're delighted to have her in the role."

KeySIM has recently secured a finance facility from NatWest to support its growth and investment in resilient network infrastructure. The company plans to pursue ISO certification in the first half of 2027.
