## YOUR DIGITAL TRANSFORMATION SOFTWARE TESTING PARTNER

Setting the standard in managed outsourced software testing

# DVT GLOBAL TESTING CENTRE

### FACT FILE

- 150 testers (automation script writers)
- 15 years of experience
- No time zone barriers (Europe and South Africa)
- English speaking, international business culture
- Our own test automation framework
- 48 hours project initiation
- Scrum Agile approach

### ABOUT DVT GTC

The DVT Global Testing Centre, based in Cape Town, South Africa, is a Division of digital technology experts DVT, a provider of high quality software solutions and related professional services.

The DVT Global Testing Centre offers its clients a managed outsourced testing service, utilising a proprietary software testing framework, which is built on open source components compatible with most continuous integration tools. Our areas of speciality comprise:

- Automated Regression Testing
- Cross Browser Testing
- Device Testing
- Performance Testing
- API Testing

### THE DVT GTC VALUE OFFER

- *We are testing experts.* We employ over 150 testing professionals at the DVT GTC, backed up by the DVT infrastructure of more than 700 staff with a wealth of experience and knowledge.
- *We offer real solutions.* Our clients benefit from our years of experience, shared insights and lessons learned.
- *We have extensive offshore and outsourcing capabilities.* We have no time zone barriers, no language barriers and an international business culture.
- *We focus on growth creation* for our clients and our staff.
- *We address the need for quick release testing cycles.* Software test automation allows for more frequent testing with faster execution and more coverage.
- *We significantly reduce cost of ownership.* Our UTA-H Framework, which is based on open source and an Agile approach to software testing, means our clients do not pay licence fees for their testing projects.
- *We outsource according to your requirements.* Our clients determine their specific team size, according to budget, time or scope.
- *We are available at short notice.* Our project initiation for test automation is 48 hours.
- *We add operational value.* By automating labour-intensive businesses, your resources can focus on core business aspects.
- *We believe in collaborative solutions.* We use the Scrum methodology to complete our projects.
- *We share our knowledge and expertise.* We include research and development for test automation on our clients' software – at no extra charge – to optimise the automation process.

### FOUR FLEXIBLE ENGAGEMENT MODEL OPTIONS

**1 GTC PAY AS YOU GO**

This model is ideal for short bursts of functional or performance testing.

**2 GTC BASIC**

A test automation managed service for small to medium size projects.

**3 GTC PROFESSIONAL**

A heavyweight test automation managed service for bigger projects, with the option of one or multiple teams.

**4 GTC LITE**

An entry level outsourced testing package, specifically designed for small to medium sized enterprises requiring a blend of services.
