

**PRESS RELEASE**  
**For Immediate Release**

**19<sup>th</sup> July 2018 - Compass Partners completes acquisition of three assets from Bridgepoint in a €100m transaction backed by Glendower Capital.**

London – Compass Partners has completed the acquisition of three assets from various funds managed by Bridgepoint. As part of a portfolio acquisition completed in 2016, Compass acquired majority stakes in Rodenstock and Infinitas. This subsequent transaction saw the consolidation of Bridgepoint’s remaining interests in these businesses as well as the acquisition of 100% of Protocol. Compass raised €100m from funds managed by Glendower Capital to finance this acquisition, which also provides significant follow-on capital to support the development of the portfolio.

For Compass, this represents a further step on its strategy of acquiring legacy portfolio assets. Total assets under management now exceed €500m.

Commenting on the transaction, Alister Wormsley, Partner at Compass Partners stated:

“Since our initial investment, we have made solid progress at both Infinitas and Rodenstock and are delighted to have had the opportunity to acquire the minority interests. Our strong operational and strategic focus has underpinned improved performance and the prospects and outlook for both businesses are good. Protocol represents a good addition to our portfolio and is well positioned for growth.”

Chi Cheung, Partner at Glendower Capital commented:

“We have known the Compass team for a considerable time and are delighted to support them in a portfolio acquisition where they have delivered substantial progress in two of the key assets.”

Legal advice was provided by Dickson Minto and Macfarlanes LLP.

**Further information:**

**Compass:** Based in London and Connecticut, Compass is a private equity firm focused on secondary direct transactions.
