### **Five stars!                      wow!**

By [Alan Banner](#) on August 27, 2014

Format: Kindle Edition

A riveting book. I would say turn the lights down and get ready for an adventure. I experienced it all through the author, Albert, without having to be there in person thank fully. Don't know how I would have dealt in certain situations.

### **Five stars!                      Proof of Oneness**

By [Roger G. Lanphear](#) on August 24, 2014

Format: Kindle Edition

Most of us can only imagine what it would be like to be clairvoyant. Albert gives us keen insight into just that. Furthermore, it is important we all learn more about psychic phenomena because of its proof of "oneness". The latest scientific research points to our entanglement to all of creation, and how each of us to some degree experiences that connection. Albert's stories help us all to recognize that oneness-- and even open it up. That is the first step to world peace.

### **Five stars!                      GREAT EXPERIENCE!**

By [Bill](#) on August 20, 2014

Format: Kindle Edition

Each chapter is written so vividly that you feel like you're a character in the book, as an innocent bystander, watching each story graphically unfold. You not only see, but you feel this book, as Albert endures great pain as well as great triumphs. Your heart breaks many times throughout this captivating book, but you also celebrate with the author as he becomes more in tune with his spirituality and metaphysical gifts.

### **Five stars!                      Caused me to pause and reflect**

By [Wilfried Marquardt](#) on June 26, 2014

Format: Kindle Edition Verified Purchase

Albert Jackson's writing caused me to pause and reflect back on events within my own life. Rarely does a book cause me to slow up and reflect. It reinforced there is more than that what's meets the eye. Very descriptive writing, easy read as it draws you in.

**Five stars!                    If you've not done so yet, read this book!**

By [Jobob](#) on May 9, 2014

Format: Kindle Edition

I was skeptical about this book when I first started reading it but I soon became more and more drawn in to the story. As Mr. Jackson details out the experiences of his life you get pulled further and further in and deeper and deeper down the rabbit hole. There is no story like this out there and I encourage anyone who is looking for a book that portrays the evolution of personal mysticism to read it. It's life changing.

**Five stars!                    Insightful and compelling personal story**

By [John](#) on April 24, 2014

I followed his discoveries and labored with him as he coped with his own internal skepticism in regards to his initial reactions to the world of the paranormal. As each story unfolded, I came to realize that I had my own real questions and mysterious encounters that I had forced into the shadows rather than deal with them, for fear of ridicule from our seemingly rational world. An excellent, bountiful, educational, mysterious, exciting ... must read!

**Five stars!                    Fascinating and Engaging Read**

By [Ruth Licht](#) on April 22, 2014

I loved this book. I have always been interested in the metaphysical and Mr. Jackson's fascinating way of writing really brings his experiences to life. Reading what has happened to him makes me realize the true power of the universe, both the highs and the lows. I was astounded by what he has witnessed and his mesmerizing descriptions made me feel like I was there. This is a highly engaging and compelling read!

**Five stars!                    A Must Read**

By [K. Branham](#) on April 22, 2014

This story was so engaging, I kept having to remind myself it was an autobiography. The author does an excellent job of drawing in the reader from the beginning. I was even scared at the end. He is such a good story teller and the story is so interesting, once I was finished I couldn't wait to hear more details. If you are at all interested in metaphysical phenomena- you won't want to miss this.

**Five stars!                    Great!!!!!!!**

By [Latrice Jackson-Sears](#) on April 22, 2014

It feel like you are actually there...The content is amazingly detailed. It is definitely a must read autobiography. Pick it Up!!!
