

## **We Buy Motors Raises the Bar with Instant Car Valuation**

We Buy Motors, a well-renowned online used car dealership, is offering instantaneous, free car valuations to customers. The company guarantee not only the best possible market price but a complete and finalised sale within just 48 hours.

The free car valuation service is available through an easy to use interface located on the website. Sellers only require their registration number and mileage to receive a quote. The advanced software evaluates real-time information from several sources and delivers an accurate and reliable price based on the current market value of the vehicle. The complete process takes less than 60 seconds, with customer testimonials confirming a 'Five Star Service' that delivers a very fair price. The company encourages potential customers to seek valuations elsewhere, declaring that their quote will be more than what other dealers are ready to offer.

Once a value has been confirmed, We Buy Motors will arrange for an inspection, collection, payment and documentation transfer, including mandatory V5C or V62 submissions. A physical assessment is conducted to ensure the vehicle condition matches the online valuation. This is a formality that the company takes to ensure any modifications or customisations have been properly documented. While this may change the original quote slightly, We Buy Motors provide a guarantee that they will buy every car that is valued.

With an instant car valuation, sellers can make a quick, informed decision on their vehicle without wasting time and money visiting multiple dealers. The free car valuation service offered by WeBuyMotors.com has helped position We Buy Motors as a leading service provider in the used automotive industry.
