NCCC Since 1914

About **NOCO**.

The NOCO Company was founded in 1914 in Cleveland, Ohio. Joseph Henry Nook, a local tire and battery distributor, set out to develop a product that would prevent battery corrosion. After several hundred different formulations, Mr. Nook began commercially manufacturing and distributing the world's first Battery Corrosion Preventative which he called NCP2. NCP2 is an acronym for "No Corrosion Product" which is applied in "2 Steps". The NCP2 brand quickly became a household name in every major battery and automotive shop. For over 100 years, the NCP2 brand has been preventing battery corrosion on more than one billion vehicles and applications worldwide.

Since then, NOCO has grown into a leading designer and manufacturer of innovative consumer-based battery and power products.

BOOST

Ultra**Safe®** Lithium

Jump Starters

Safely jump start a dead battery in seconds.®

Safe, powerful jump starting.

Designed for most vehicles including ATVs, lawn mowers, motorcycles, cars, trucks, boats, RVs, tractors, equipment, and more. The new, more powerful models are for diesel and high-displacement engines, but are still safe on engines of all sizes.

+ JumpCharge [Vehicle Starting]

100

Start-Stop.

Counteracts increased cyclic energy demands placed on batteries in micro-hybrid vehicles.

Firewall.

Multi-level safety barrier prevents unsafe and abnormal conditions.

Optimization.

Stabilizes internal battery chemistry for increased performance and longevity.

Load Tracking.

Dynamically changes charge current when a load is placed on the battery.

Diagnostics.

Intuitive visual diagnostic tool for detecting reverse polarity, low-voltage or damaged batteries.

Energy-Save.

Minimizes energy consumption when full power is not needed.

Thermal Monitor.

Internal temperature sensors adjust charge based on ambient climate.

Safe.

Protects against reverse polarity, sparks, overcharging, overcurrent, open-circuits, short-circuits and overheating.

Memory.

Returns to last selected mode when restarted.

Interactive.

Alters the charging process based on organic battery feedback.

Recovery.

Applies a high-voltage pulse charge when low-voltage, sulfation, or lost capacity is detected.

Rugged.

Dirt, water, UV, impact, and crush resistant.

CANBUS.

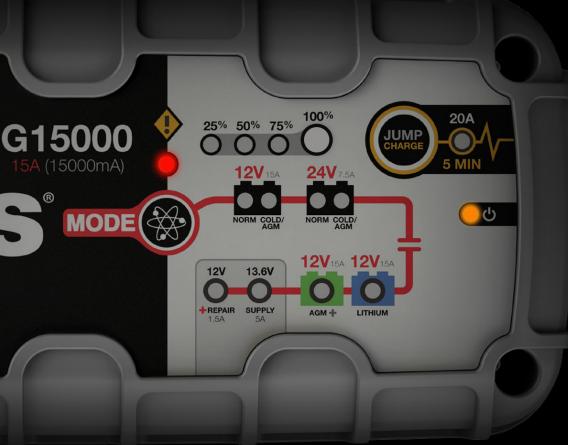

Automatically enables the charging port to charge CANBUS systems.

Maintenance Plus.

Keeps the battery fully charged without overcharging, indefinitely.

Advanced diagnostics.

Standard on all G Series and GX Series Chargers.

Identify problems to solve them more efficiently.

Advanced diagnostics analyze the battery and display specific errors if a problem is detected. The flash pattern tells you what is wrong so you can quickly fix it:

Single Flash: Battery will not hold a charge and should be checked by a professional.

Double Flash: Possible battery short, and should be checked by a

professional.

Triple Flash: Battery voltage is too high for the selected charge mode.

Double check the battery matches the charge mode.

Error LED Solid Red: Reverse polarity. Reverse the connections to the battery.

Standby LED Solid Orange: Battery voltage is too low for charger to detect the battery.

Smart industrial battery chargers.

UltraSafe, universally adaptable chargers designed for heavy-use industrial vehicles, anywhere.

Precision aluminum body. Waterproof & tamperproof interface. Compact industrial on-board chargers.

3 models available, same compact size & advanced features:

5W Solar Battery Charger + Maintainer

SOLAR 2

2.5W Solar Battery Charger + Maintainer

Compatible with all NOCO X-Connect accessories.

Auto | Marine | RV | Powersport | Lawn & Garden

Waterproof.

Weather resistant solar charger for outdoor use rated at IP65.

UV Resistant.

Engineered to take the abuse of the sun through the use of color stabilization and UV inhibitors.

Designed for Safety.

Short circuit, open circuit, overheat, and overcurrent protected.

Thin Film Technology.

Works well in low-light, cloudy, and overcast conditions.

Black Current Protection.

Protects the battery from accidental back current drain at night.

Ultra Low-Profile.

Unique low-profile design for a light weight, compact charger.

Rugged Frame.

Made from an engineered polymer for high-strength and durability.

Dependable charging accessories.

Battery Clamp Connector

Quickly connect to any battery, or keep attached for convenient charging.

Eyelet Terminal Connector

Permanently mount one on your ATV, Motorcycle, Car, Boat or any other vehicle for easy charging.

12V Plug Connector

Charge and maintain your vehicle's battery by plugging into the 12V auxiliary plug.

GC004

10' Extension Cable

Extend the reach of your NOCO chargers and accessories with the GC004 10' Extension Cable.

XL Eyelet Terminal Connector

Connect to batteries with 3/8" terminals. Permanently mount eyelets to your vehicle.

SAE Adapter

GC010

12V Plug Female Outlet

Use with a G7200 in supply mode to create a 12V outlet, or pair with the GC013 Male-to-Male.

NOCO

The dual size adapter fits both standard size 12V plugs & mini 12V outlets on motorcycles.

OBDII Connector

Coupler

Connect to the OBDII Connector found in vehicles 1996 and newer.

Male-to-Male 12V Eyelet Battery Indicator

Built-in LEDs indicate the charge level of the battery, for ongoing monitoring.

12V Dashmount Battery Indicator

Quickly connect to any battery from wherever the Dashmount Battery Indicator is located.

GC024

XLR Connector

Quickly connect to any 24V XLR port (commonly found on power wheelchairs) with the **G7200**.

HD Battery Clamps w/Integrated Eyelet Connector

Connect quickly to any battery or permanently mount the eyelets (For G15000 & G26000 Only).

Safe, jump starting accessories.

HD Boost Battery Clamps

Heavy Duty clamps designed to efficiently transfer maximum current flow with minimal power loss, and silicone insulation for heat stability and flexibility.

Powersport Battery Clamps

Needle-nosed clamps designed for powersport applications. Equipped with integrated eyelets allowing for permanent battery-mounting.

Boost Eyelet Cable w/Charging Adapter

Permanently mount a Boost Eyelet Cable to difficult-to-access batteries and use the X-Connect charging adapter to connect to a Genius Charger.

Boost Eyelet Cable w/Charging Adapter (SAE)

Permanently mount a Boost Eyelet Cable to difficultto-access batteries and use the SAE charging adapter to connect to a charger.

Accessories on this page work exclusively with GB20, GB30, and GB40

Boost Settings Keeper

Boost Settings Keeper allows you to change or disconnect your car battery without losing your programmed electronic settings.

(Compatible with GB70, GB150, and GB500)

AC USB Charger

10W AC USB Charger Type A for rapidly charging devices that recharge using a USB cable - including Boost.

XGC4 Power Adapter

Recharge Boost five times faster with the 56W XGC4 AC Power Adapter. Compatible with GB70, GB150, and GB500.

Rugged storage.

Protective EVA hard cases designed and made exclusively to fit Boost UltraSafe® jump starters.

Universal 12V accessories.

12V Plug w/Battery Clamps
Instantly tap into a 12V battery's power and create an easy-to-use 12V port.

12V Plug w/Eyelet Terminals
Turn any 12V battery into an AUX 12V port.

12V Plug 12' Extension Cable
Extend the reach of your 12V ports with
this heavy duty 12' extension cable.

The original battery corrosion preventative since 1914.
