A Sussex based company, The Shore Group, based in Hove with over 24 years' experience providing professional staff for the Construction Industry has in the past 12 months placed over 15,000 temporary vacancies in the UK. They source and supply staff within the construction and property sectors across the UK and understand the challenges that many companies face with recruiting staff, whether for a particular project at short notice or strengthening their professional team.

It's another amazing success story for this Sussex Company that has grown from a £2 M to a £65 M turnover in 5 years with currently a staff of 50 at their Boundary Road offices. The Shore Group established by James Hobden, Frank Ashbee & Lewis Yorke-Johnson has firmly become a powerhouse within the construction recruitment sector. The concept of the Group was to create an environment where people want to perform, as the rewards on offer are worth working hard for. They recently took all the staff as well as their Tradesman of the Year to Stockholm as a reward for some excellent performances. In addition, incentives and entertainment includes more overseas trips and tickets to top sporting events.

Frank Ashbee, Founder and Director of the Shore Group said, "We are excited with what we think we can achieve this year and passionately believe that to get the best out of people they must enjoy the process of coming to work."

The scale of the Shore Group operation and the way it has grown in the past few years has been to create an environment where people want to perform, as the rewards on offer are worth working hard for. Currently, the Shore Group is looking for 6 new apprentices to join their team and prove they have what it takes to be successful in the construction recruitment industry.
