The National Mediation Awards launched in 2012 by the Professional Mediators' Association (PMA), celebrates the cutting edge of current mediation practice.

Over the past three years, mediation has become a mainstream and credible tool for resolving complex business disputes. Mediation saves businesses time and money. It also reduces the stress that is associated with conflict and creates an environment where parties can develop sustainable and constructive remedies.

This is in stark contrast to adversarial or legal remedies which are expensive and result in a winner and a loser. PMA members demonstrate their commitment to mediation and include British Airways, Lloyds Banking Group, London Borough of Newham, Brandon Trust, Imperial College, amongst many others.

The 2015 National Mediation Awards will highlight the value of non-adversarial and collaborative approaches in conflict resolution. The theme of this year's awards is '**Demonstrating the Impact of Mediation**'

Mediation versus litigation – a live debate.

Prior to the awards the PMA will host an exciting and informative Discourse event. This will feature a debate by industry experts on the topic below:

'Mediation is better for businesses than litigation'

The event will end with a glittering awards ceremony celebrating the impact of mediation on business across the UK.

This year's event will take place on Thursday 24th September at a central London location TBC. Watch out for details of our exciting special guest too.

Julie Plant, Head of Learning and Development and winner of best newcomer to mediation award in 2014 said:

"As newcomers to mediation we felt really encouraged and supported by the PMA. Were so pleased and excited to be awarded the "Best Newcomer to Mediation". It's going to give our Mediation scheme a real boost and is a testament to the hard work of our newly qualified Mediators. Having our Mediation video Highly commended by the PMA means that we can feel confident that we are giving a meaningful message to our staff about what mediation is and hopefully help them to feel encouraged and safe in the process should they ever need it"
