70+ Speakers Announced for London FinTech Week 2014

Monday 17 February, 2014

FinTech is short for FInancial Services Technology. London's inaugural FinTech Week Celebration kicks off at the new Barclays Accelerator in London. If you give an ounce of care about how technology will disrupt the world's financial capital, you should pay close attention to the largest gathering of its kind. Big banks, large investment houses, large insurers, pension providers and disruptive technology start-ups all make up the fabric of London's FinTech ecosystem, which is why they'll all be a part of FinTech Week. Tickets are on sale now for the worlds biggest FinTech Festival. With over a week's worth of mini-conferences, parties, meetups and 3rd party events, there's something for everyone. All of London's FinTech Accelerators are taking part, including Accenture's FinTech Innovation Lab, Barclays Accelerator, Startupbootcamp FinTech and Level 39. Aviva and Zapp are among the key sponsors.

We've gathered one of the most extensive line-ups enterprise leaders and disruptive start-ups. If you want to know what the future of finance will soon look like and mingle with the people creating the change, you won't want to miss the first annual London FinTech Week.
