

Abacare Contract Win Means 150 Care Jobs In N. Powys

Monday 17 March, 2014

ABACARE Care Agency Ltd has this week (March 13, 2014) been awarded a significant contract to supply care in North Powys that will mean jobs for an additional 150 employees.

The Bangor-based organisation already has more than 260 trained staff and operates a professional Care Management Team committed to providing high quality care to individuals in their own homes.

Peter Angelides, Managing Director at Abacare, said: "We've been operating at a very high standard for a number of years in Wales and have a good team of highly trained staff, but this new contract means we are now looking to recruit a further 150 staff to add to our existing valued and highly motivated team.

"We are really looking forward to extending our excellent provision of care to the service users of Powys Council. We were excited to be part of the tendering process, which we felt was very thorough and robust in order to protect the quality of the service Powys Council was looking to provide."

Anyone wishing to join Abacare should call 01248 677919 or visit www.abacare.org.uk to download an application.

Abacare's existing large team of trained, specialist, care workers provide positive based outcomes and person centred care to people not just in Wales but throughout the UK.

The organisation is a member of the United Kingdom Homecare Association, Ceretas (formerly British Association of Domiciliary Care), The National Homecare Council and The Information Commissioners Office (Data Protection).

It is also registered with the Care Social Services Inspectorate Wales and is audited by the Care and Social Services Inspectorate Wales (CSSIW).

Abacare was also recently awarded an Investors in People accolade for its staff training and development.

Investors in People is a national standard, which provides a framework that helps organisations to improve performance and realise objectives through the effective management and development of their staff.

Staff at the care agency were assessed to ensure the organisation met the requirements of the standard.
