ABUniverse UK (Strom Holdings UK Ltd.) opens new warehouse in Manchester

Tuesday 10 April, 2018

With locations in Australia, Canada, France, Japan, Seattle (US) and Baltimore (US), it made sense for ABUniverse® to open its own physical location in the UK.

Instead of utilizing other companies to pack and ship our products, ABUniverse UK will now be able to fully customize the packing and ensure discreet shipping for every order. With this, ABUniverse UK is now able to add the baby fresh scent, offer mixed cases, and gives customers the opportunity to visit.

When visiting ABUniverse UK, customers can try our signature DiaperSuits (Adult Snap Crotch Onesies) to ensure they have the proper fit, along with trying specific diapers that they may not have had the chance to try before.

The new location is located in the same business park as DPD, ABU's preferred shipping carrier, which will allow us to fulfill orders later in the day for next day and second day delivery.

ABU will be open for walk-in customers on Fridays beginning 20th April 2018 and will be open other days by appointment only.

Casey Strom, CEO of Strom Holdings/ABUniverse commented, "Having our own home in the UK makes sense for us as we expand our reach globally. It reassures our customers that we are owned and operated by the ABDL community and delivering products they are asking for. To be able to touch and feel a product before you buy it is only natural and having an all ABDL staff picking and packing orders ensures that the parcels will always be discreetly delivered."

ABUniverse is a leading ABDL Diaper manufacturing brand in the UK and greater Europe, recently launching it's PeekABU™ brand, which is featured as the most absorbent diaper in the world. Our other flagship diapers, Space®, and LittlePawz® are household names and available direct from ABUniverse UK.

You can find ABUniverse ABDL Nappies and other products online at https://uk.eu.abuniverse.com.
