

AEC Digital Solutions celebrates anniversary having emerged as a global leader in Bentley/ BIM services

Monday 21 July, 2014

AEC Digital Solutions LLC (a USA based Company), with global presence and operations in India, is one of the leading service provider in BIM having an in-house team of trained Architects and Engineers with expertise in BIM software's like Revit, Bentley AECOsims and Bentley Microstation.

We are here in July 2014 and on the occasion of AECdsl's anniversary we'd like to say a big 'Thank You' to our present and past clients, partners, vendors, colleagues and all those with whom we have been in contact directly or indirectly. We are appreciative of your continuous support, business and encouragement during this tenure.

Since inception, AECdsl has focussed on developing strong customer and partner relationships – ones that have matured and endured over time. All of this growth wouldn't have been possible without our clients. We thank them not only the opportunity to work with them, but also because we've learned so much from them in the process.

"AECdsl's anniversary is a tremendous milestone for the company. Over the year, we've introduced incredible innovation into the AEC industry. I am immensely proud to be leading a team of people who strive for perfection every day and relentlessly work to build the strongest BIM team and deliver incredible service to our clients" says AECdsl's **Founder and President Rajesh Garg**.

At AECdsl, employee knowledge and spirit are considered some of the company's most valuable assets.

Principal Asish Mallick says: "We constantly seek ways to improve what we are doing in order to satisfy the needs of our clients and bring the company to a new level. We are glad to be renowned as one of the market leaders in the field of BIM."

We are fortunate to have a diverse group of clients that we are proud to steadily grow each month. As we look to the future we see great things. Technology is not an industry that allows you to plan years in advance as you can imagine. But what we are sure of is that technology will always change and that AECdsl has the people and the passion to continue to be leading for many years to come.

So thank you for joining us on this journey, and we hope you'll continue with us on this escapade.
