

ALFACashier adds a VIP level for the members of its affiliate program

Tuesday 24 June, 2014

June 24, 2014: ALFACashier, a popular online currency exchange service supporting conventional and emerging cryptocurrencies, announces changes in its [affiliate program](#). The new VIP level is intended for the most active affiliates who own popular blogs, forums and websites, and have generated a total of 1200 dollars in affiliate earnings.

The VIP level offers affiliates as much as 20% of all future referred currency conversions. The VIP status is granted for a lifetime and is non-revocable. ALFACashier offers users a complete set of banners of different formats that can be easily inserted into any webpage or a personal signature block of a user's forum posts. Obtaining the VIP status in the ALFACashier affiliate program enables users to generate stable passive income by referring new users to the system. Payouts can be made to the user's PerfectMoney purse when the accumulated amount of affiliate commissions reaches \$100.

"The VIP affiliate status is the very pinnacle of our affiliate network hierarchy," explained Helena Schwartz, Head of Business Development, ALFACashier. "We realized that our affiliate network needed a strong impulse to draw more traffic to the service. The VIP level offers an incentive strong enough for top users to do push the envelope and get their share. We surely hope to see some VIP users very shortly."

All affiliate status updates are fully automated and are made by the system when the user reaches a predefined level threshold. ALFACashier takes all measures necessary to prevent spamming and abuse by the members of its affiliate program.

Pricing and Availability

ALFACashier has free registration, but charges a commission on each exchange operation performed by its members.

About the company

Founded in 2012, ALFACashier is an easy-to-use exchange platform supporting all major electronic currencies, including cryptocurrencies, and erases the boundaries between electronic payment systems.
