

Anasuria Operating Company onboards MODS intelligent industrial software solutions for digital work packaging and completions

Tuesday 11 November, 2025

Aberdeen, United Kingdom – [Anasuria Operating Company Limited](#) (AOC) has entered into an initial 12-month contract with [MODS](#) for the implementation of [MODS Connect WorkPack](#) and [MODS Connect Completions](#), empowering Anasuria's commitment to excellence.

This initiative represents [MODS](#)' first Owner-Operator model, developed with input from multiple EPCs and vendors to ensure a truly collaborative and integrated solution.

The introduction of MODS intelligent industrial software underscores Anasuria's progressive mentality, empowerment of their work front management, and mission to deliver safe, exceptional projects. [MODS Connect WorkPack](#) and [MODS Connect Completions](#) work in symphony, enabling teams to execute, certify and handover projects with greater efficiency, transparency, and safety across the Anasuria Cluster.

Anasuria's Project Lead applauds MODS as a best-in-class web application that will assist with safe operations. He says:

"Within Anasuria Projects, there were significant challenges in the construction and commissioning phase characterized by a lack of standardization across multiple vendors. [\[MODS Connect\]](#) will allow us to standardize across all key stakeholders, bringing visibility, consistency and control to our construction and completions work on the asset."

Jon Bell, CEO, MODS is equally enthusiastic:

"We're excited about our new digital partnership with Anasuria and look forward to demonstrating how our contract directly with an owner-operator will increase value and lead to safer, more confident projects."

Through the implementation of [MODS Connect](#), Anasuria will digitalize critical workflows, streamline project execution, and strengthen alignment across contractors and all project/asset stakeholders—all while maintaining their focus on operational safety and performance.

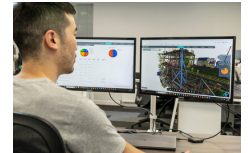

About Anasuria Operating Company

Anasuria Operating Company Limited (AOC) is the Operator of the Anasuria Cluster, located in the UK Central North Sea. A joint venture between Ping Petroleum UK PLC and Anasuria Hibiscus UK Limited, AOC is committed to safe, efficient, and value-driven operations.
