

Baltic Musical Seasons Foundation: Latvia has the Potential to Become the Most Popular European Cultural Tourism Destination

Thursday 30 March, 2017

A
press conference timed for the launch of the **Baltic Musical Seasons** project, which should become one of the brightest events in the cultural life of the Baltic region and the entire Europe, was held in Riga. Within the framework of the project, it is planned to hold important international events in the field of classical music art in Latvia.

To
implement the project, the Foundation of the same name was established. Its founders of which are large Latvian and foreign businesspersons and patrons of art.

At
the event, the Organisers presented the program of the first concert cycle, told about the plans and ideas for the development of the project and shared their goals.

The
press conference was opened by the chairman of the Board of Trustees of the **Baltic Musical Seasons** Foundation, the well-known businessman and philanthropist Guntis Ravis: "We are proud of the Latvian opera and classical music stars, whose talent is recognised all over the world – **Elina Garanca, Kristine Opolais, Gidon Kremer, Andris Nelsons** and many others. However, I believe that the time has come to take the next step and designate Latvia on the European map as a competitive, valuable cultural destination. If we can ensure the high-quality offer and become the best in the region, both connoisseurs of art and the state budget will benefit from it. This will be an excellent alternative to the usual summer festivals in Jurmala, as our project is called upon to promote high art in the long term," he said, stressing that Latvia has the potential to become the most popular European destination of cultural tourism.

In
turn, the art director of the Foundation, director Andrejs Zagars promised that not only the debut concert season, but also the further program of the **Baltic Musical Seasons** will be eventful and interesting.

"During
the next events, the Latvian audience will have the opportunity to hear great artists on our stage for the first time, and the Foundation's strategy for the next year will allow us to significantly expand the genre's boundaries, and will present many pleasant surprises not only to connoisseurs of classical music, but to the admirers of modern art as well. We plan to henceforth cooperate with legendary musicians, choreographers and theatre directors from around the world," Zagars assured.
