Bar Amigos ® novel IceStickAll multi-use drinks tool puts an end to drippy ice cubes

Wednesday 27 April, 2016

The Bar Amigos ® IceStickAll is an ice cube cooling stick but with added features. It acts as a cocktail layering tool, a muddler, a stirrer, and an ice cooler all in one handy device!

This gadget will cool your drink like real ice but without any diluting. Made of stainless steel, it stands sturdily in your glass and has a convenient handle for ease of use. Not only does it look attractive, this two pack product comes with a handy freezer box so you do not lose your Bar Amigos ® IceStickAlls among other frozen products while chilling. This container can also be used to transport your Bar Amigos ® IceStickAlls outside at summer barbeques to help retain their cold temperature.

This novel multi tool features as a layering tool to make some really cool looking cocktails with vibrantly coloured liquids, a muddler for crushing and muddling fruit, a stirrer and, finally, a drinks cooler.

Placing in your freezer for at least one hour, you can use the Bar Amigos ® IceStickAll to chill any liquid which needs to be cold such as soft drinks and alcoholic beverages and all without watering down the taste or flavour of your favourite drink. After all, when you have just poured out a measure of your finest Whisky, why would you want to dilute it with imperfect ice? You can now savour the cool taste without trying to avoid lumps of ice in your mouth whilst drinking!

Colin Betteridge, Director and owner of Bar Amigos ®, a CKB Ltd ® group company brand, said "There are so many uses for this must-have tool. You can use it to chill a white wine that was left out of the fridge for too long or, unlike other drink coolers, chill your children's drinks without them trying to fish out frozen cubes that can make a really wet mess! In stock now and coming with our no fuss Bar Amigos ® Lifetime Guarantee, this product is an essential kitchen or bar item so if it needs to be cold, stick an IceStickAll in it!"
