Bitcoin payments accepted by London massage agency

Thursday 23 January, 2014

LONDON - January 10th, 2014, SENSUOUS London, announces it now accepts Bitcoin as a method of payment for its Central London, luxury sensual massage experience.

In what is likely the first of its kind in the United Kingdom, SENSUOUS are glad to be able to offer our clients the possibility of instant, final, secure and discreet payment for our massage service, without the expensive exchange rate and credit card fees or charge-backs of tradition payment service providers.

Bitcoin and similar cryptocurrencies have a "clear potential for growth and could become a major means of payment for online transactions" a Bank of America analyst told CNBC. As the number of Bitcoin users continues to increase, merchants such as Adafruit, BTCTrip, Alliance Virtual Offices, and Clearly Canadian, see the value of working with BitPay to help expand their business.

"BitPay is the gateway payment for business that want to accept bitcoin. It's the main player to develop the merchant economy for bitcoin community," said Martin Fernandez, CEO BTCTrip.

Bitpay's reputation as "the Paypal of Bitcoin payments" together with their enterprise eCommerce solutions, made them the obvious partner to provide our Bitcoin payment gateway. Easily integrating into our existing opensource eCommerce platform.
