BIXOLON Europe Expands Specialist Printing Portfolio with SRP-G300 and BK5-41 Launch

Tuesday 14 April, 2026

Launching Advanced Lottery and Kiosk Printers for High-Demand Environments

BIXOLON Europe GmbH, a subsidiary of BIXOLON Co. Ltd, a leading global Mobile, Label and POS printer manufacturer, today announces the launch of the SRP-G300 lottery printer and the BK5-41 kiosk printer. Two NEW specialised printing solutions for the European market which are designed to deliver high performance, reliability, and seamless integration across self-service and lottery environments. Both models combine compact designs with powerful functionality to support operators looking to optimise transaction efficiency and system uptime.

SRP-G300

The **SRP-G300** is a high-performance 3-inch (82.5mm) lottery printer engineered to meet the demands of high-volume lottery applications. Delivering printing speeds of up to **255 mm per second** at **203 dpi**, the printer ensures fast and consistent ticket production. With smart sensors to support smooth and reliable operations, while its large media roll capacity of up to **?203 mm** reduces the need for frequent roll changes in busy retail locations. Supporting a user-friendly stacker that enables easy collection of **approximately 100 printed lottery tickets**, improving workflow and organisation at the counter. The printer also features a space-saving design with a **built-in power adapter** to help maximise valuable counter space. Offering USB connectivity as standard, with optional powered USB for enhanced flexibility. The SRP-G300 is equipped with **16 MB SDRAM and 16 MB Flash** memory to store large volumes of data and multiple ticket templates. Designed for long-term reliability, the printer offers a thermal print head life of up to 100 km and an Auto Cutter rated for up to 2 million cuts.

BK5-41

The **BK5-41** is a 4-inch (20mm - 118mm) compact open-frame ticket and label kiosk printer designed for seamless integration into self-service systems. Offering fast printing speeds of up to **150 mm per second**, it ensures efficient transaction processing in kiosks and automated environments. Its side open-frame deisgn enables quick and easy media loading, reducing maintenance time and simplifying servicing. With an adjustable Black Mark sensor which allows reliable detection across multiple media types, ensuring consistent print accuracy. With a compact form factor optimised for confined kiosk systems, the BK5-41 is ideal for installations with limited space. The printer also supports **USB and Serial interfaces** and is backed by a wide range of drivers and SDKs, enabling straightforward integration with existing kiosk platforms.

“The introduction of the SRP-G300 and BK5-41 further strengthens BIXOLON’s portfolio of specialised printing solutions for the European market,” explains Paul Kim, Managing Director, BIXOLON Europe GmbH. “Both products have been designed to deliver the reliability, performance, and flexibility that our partners and customers require in demanding lottery and kiosk environments. With these new solutions, we continue our commitment to supporting system integrators and operators with innovative technology that enhances operational efficiency and customer experience.”
