

## Blue Moose focus on business development growth

Monday 27 June, 2016

Sales and marketing firm, [Blue Moose](#) recently travelled from their Newcastle office to London in order to attend a business seminar focused on business development and growth.

About Blue Moose: <http://wearebluemoose.com/about-us/>

On Friday 3rd June Blue Moose travelled to London to attend an important business seminar aimed at business development and growth. The seminar saw business owners travel from across the UK and come together to discuss the importance of development and expansion. Blue Moose regularly have the opportunity to travel and attend such seminars; because it is an integral aspect of the firm's business development opportunity.

The event was an educational experience because it saw high profile business speakers offer their opinions on how to drive growth and improve business development within business. This is a hot topic within the sales and marketing industry because business growth results in better brand recognition, builds business value for customers and provides the ability to offer a wider range of products and services to a larger geographical target market. The business expansion of Blue Moose is driven by an increasing demand from the firm's clients to grow; this is because expansion of Blue Moose will mean that they can target more markets and acquire more customers, at the same time as growing a brand that is recognised by a larger customer base.

The event last week was also a perfect opportunity for the fresh firm to learn new skills and network with like-minded professionals. Blue Moose believes that networking creates a community of people who want to support each other; by providing emotional support and information that will help in business development. Individuals involved in business networking will learn new skills and additional business knowledge plus they may even discover the solution to a problem currently being overcome. Networking may also give someone the satisfaction of providing the key piece of information that makes a real difference in the work of someone else within the same business network.

Blue Moose is a [direct marketing and sales](#) firm, that support small businesses by developing and executing tailor-made direct marketing campaigns that are cost-effective, generate a high ROI and increase their clients' customer base. The marketing strategy used by Blue Moose involves events and promotions which is one of the fastest growing fields in marketing and advertising today. Based in Newcastle, the firm regularly travel around the UK to attend different business events in order to keep competitive within the market.
