

## Book Into Your Local Pharmacy for Basic Healthcare Appointments Over the Festive Season

Sunday 29 December, 2019

Beat the queues at your GP Clinic this festive season by making better use of the wide range of appointments and expert advice available at your local pharmacy.

[PillBox Chemists](#) are an independent, family owned company with over 20 operating NHS pharmacies throughout Berkshire, Middlesex, Hampshire, Surrey and Northamptonshire. They offer a wide range of tailored NHS services as well as some bespoke treatments and consultations, such as registered Cardiologists who work directly for their pharmacies - and of course, you can get your flu jab at any of their sites if you haven't done so yet.

Superintendent Pharmacist and owner of PillBox Chemists Davinder Virdee had this to say:

'We know that with most people being off for a few days over Christmas, they sometimes like to use that time to catch-up on health related matters. We'd just like to remind people that they can ease the winter pressures felt by NHEngland by making good use of the range of services available within their local pharmacies.'

PillBox Chemists pharmacies offer a range of NHS approved services, such as: - Flu Jabs, Allergy Testing, Stop Smoking Treatments and Advice, Weight Loss and Management Treatments and Advice, Allergy Testing and Advice, Chlamydia Testing and the Morning After Pill. They also offer: - Blood Pressure Checks, as well as Blood Pressure Treatment and Advice, Cholesterol Checks, and full Health Checks.

So be smart, and beat the queues at your GP Practice this winter. Head on down to your local pharmacy instead, where you'll be treated by the experts in no time at all.
