With winter on its way, now's the time to ensure your child's health is in tip top condition and one way to do this is to give them healthy and nutritious snacks.

The Shaken Udder Kids milkshake range is designed to provide children with a healthy and nutritious drink at any time of the day. Bursting with calcium and Vitamin B12, a vital ingredient for boosting immunity and health during the winter months, they are the perfect lunch box addition, or after school treat.

Approved by schools, Shaken Udder Kids milkshakes are low in sugar, high in calcium and a favourite with parents and children alike.

“The autumn and winter months can be a breeding ground for nasty germs so it's very important parents think about the food they give their kids to ensure it has as many health-giving nutrients as possible,” explains Jodie Farran, founder of Shaken Udder. “The best thing about Shaken Udder Kids is that they taste great, so children see them as a treat, while parents can smugly sit back knowing they are getting some vital vitamins.”

Shaken Udder Kids milkshakes are available in 200ml cartons (£1.89 per triple pack) in Strawberry, Chocolate and Banana. They contain calcium, Vitamin B12 and are made with real ingredients. They are also gluten free and suitable for vegetarians. Shaken Udder Kids are available in Tesco, Sainsbury's and Waitrose stores.
