

CanX CBD's European GMP Extraction Facility Ready for Tolling 2020 Hemp Harvest

Wednesday 14 October, 2020

GMP, HACCP, ISO22000 and KOSHER certified facility ready to supply compliant white labelled bulk CBD distillates and Isolates to the European CBD market in 2020.

Iasi, Romania – DATE

– CanX CBD, Europe's largest GMP certified extraction facility is now ready to provide much needed capacity to extract the 2020 industrial hemp crop and provide its clients with compliant, certified and high-quality CBD derivatives.

CanX has recently seen a significant increase in demand for its quality extraction services in Europe with a renewed focus on product traceability, repeatability, and compliance. As the European hemp industry is in its final stage of harvesting, we urge customers to contact us immediately as our services are available on a first come first serve basis.
