CBD HEALTH® from Canabidol® Releases New Variants of their First-of-a-Kind Supplements

Monday 9 September, 2019

London, UK: Canabidol® the UK's leading expert in consumer CBD products, is proud to announce the release of new line extensions to their innovative CBD HEALTH® range, with the addition of 'Physio' and 'Relax' to the ground-breaking oral suspension gel range.

To help meet the fast-growing demand from consumers looking to add CBD food supplements to their general health regime, CBD HEALTH® is the first range on the market to combine pure, 100% European Cannabis Sativa L. with complimentary ingredients, backed with approved EU Health Claims to help with a variety of daily health needs.

Canabidol® CEO, Tom Whettem, celebrated this break-through by commenting "We now are able to offer our customers and consumers the only 'proven-to-be-good-for-you' range of CBD products that support your health and general well-being. No other CBD product to date can, by law, make these claims or even suggest that their products are good for your health and well-being."

Whettem added: "The substantial scientific data that backs up each of our formulations enables us to present products that have been certified and approved for use by the European Food Safety Authority. We are excited by the prospect of consumers being able to add CBD HEALTH® to their daily routines, which is made all the easier with a range of great-tasting flavours and easily-consumable formats".

The CBD HEALTH® range includes such easy-to-consume formats as oral suspension gel, which gives outstanding absorption of water-soluble CBD via proprietary CBD HEALTH® liposomal technology. These gels come in the following flavours and added health benefits:

Heart: with Vitamin B1 to support a healthy heart, plus natural raspberry flavour

Immune: with added Vitamin C to support the immune system, plus natural lemon flavour

Physio: with Calcium to support normal muscle & bone function, plus natural blueberry flavour

Relax: with Lemon Balm to support relaxation and mental wellbeing

More can be found out about this range at https://canabidol.com/

About Canabidol®

Canabidol® is the cannabis company that brings unsurpassable provenance, compliance and transparency into the UK's fledgling CBD industry.

As the UK's leading experts in the field of consumers CBD products, we like to say *"We know more. Simply because we do more".*

A family-owned company, founded in 2015 by our CEO, Tom Whettem, who also acts as a Director of the Cannabis Trades Association - the largest trade body of its type, globally representing 800 member companies and engaging with government departments.

From the very start we have challenged the status quo. While others invested in gimmicks, we invested in our company, our facilities our staff and most importantly our knowledge.

The only company nationally that exclusively owns and operates multiple sites covering the complete supply chain. Including a licenced cannabis farm, a dedicated extraction/purification facility, UK based manufacturing plant and a R&D facility.

With the concerns around the quality and legality of many CBD products on the market being Canabidol can provide the assurance and confidence where no other can. Verification on the safety, legality and conformity of Canabidol products is as simple as a quick search of the batch code found on every product that is produced.
