London, England, August 28, 2018 — CEX.IO is one of the first cryptocurrency platforms to integrate Telegram Passport for verifying users via the popular Telegram messenger.

With more than 200 million monthly active users, Telegram has won the trust of the global community as a service with strong privacy and security standards.

According to the official announcement, Telegram Passport is a tool for logging in to third-party apps that require real-life identity verification. Just two weeks after its launch, Passport can already be used to sign up for many services, from established sharing economy services to blockchain startups. CEX.IO was named among the first projects to integrate Telegram Passport.

“To pass verification using the Telegram Passport service, the user should choose the verification via Telegram Passport option, and then they will be redirected to Telegram to fill in all the relevant fields and provide the necessary information. After the phone number and email address are confirmed, the user is redirected to the verification page. Soon we will add the possibility to use documents uploaded to Telegram Passport for verification on CEX.IO.” **- Elaine Neal CEX.IO**

CEX.IO has over 2 million users from all continents and provides a rich variety of trading options for different currency pairs. CEX.IO offers a fast and reliable platform to buy cryptocurrency in just a few clicks, using either the website or the app, which provides a full-fledged trading experience on the go. The option to log in and verify identity via Telegram will enable convenient access to CEX.IO for Telegram messenger users.

**About CEX.IO**

CEX.IO is a UK-based multifunctional cryptocurrency exchange that was established in 2013. CEX.IO provides a rich variety of trading options for Bitcoin, Bitcoin Cash, Bitcoin Gold, Ethereum, Zcash, Dash, Ripple, and Stellar. These cryptocurrencies can be traded for USD, EUR, GBP, and RUB.

CEX.IO offers the best cryptocurrency trading experience by providing a variety of payment options including credit and debit card as well as reliable and timely wire transfers. This contributes to the convenience of the service. Since April 2016, CEX.IO clients have processed over 1 billion US dollars via Visa and Mastercard cards.

CEX.IO repeatedly passes PCI DSS certificate renewal to validate compliance, allowing CEX.IO to process, transmit, and store credit card data.

CEX.IO is among the founders of CryptoUK, an association founded by major cryptocurrency players to represent the interests of exchanges, trading platforms, intermediaries, and asset managers, among other stakeholders. CryptoUK is aimed at building cooperation with authorities, such as the FCA in the UK, to develop an appropriate operating framework for crypto businesses.

With more than 2 million users, CEX.IO provides stable services backed by cold cryptocurrency storage, financial viability, and profound legal compliance in 99% of countries and 24 US states. Since 2015, CEX.IO has held MSB (Money Services Business) status with FinCEN, a bureau of the US Department of the Treasury. As a registered MSB, CEX.IO has proved that the company complies with Bank Secrecy Act requirements applicable to financial institutions as well as to each of the specific requirements applicable to MSBs.
