Charity expert comes to Brighton tinnitus support group

Thursday 10 October, 2019

10 October 2019 An expert from the British Tinnitus Association (BTA) will be speaking at the next meeting of the Brighton tinnitus support group. The meeting will take place 6.00pm – 8.00pm Wednesday 13 November, at the Friends Meeting House, Ship Street, Brighton BN1 1AF.

The group enables people with tinnitus to meet others with the condition, hear useful tips on coping methods, find out what help is available and hear about the latest research.

Colette Bunker, BTA Volunteer and Support Group Manager will be giving a talk about the latest research, the work the BTA does to support those who experience the condition and the new Gold Standard for tinnitus support groups.

Colette comments: “I look forward to coming to Brighton and speaking with the support group. Being among people who have tinnitus, listening to their experiences and how they manage it, can be inspirational. I feel I learn something every time I attend a group meeting. It is amazing seeing the difference it makes to people, especially those who have recently been diagnosed.”

Tinnitus is defined as the experience of sounds with no external source, most commonly ringing or buzzing, but sometimes experienced as whooshing, clicking or even music. Around one in eight people experience persistent tinnitus. Many people aren’t troubled by sounds they hear, but for around 10%, the condition has a significant impact on their quality of life, often linked to stress, anxiety or sometimes depression.

Colette adds: “Tinnitus can be an isolating condition, and we’re keen to spread the word that there are management techniques which can help a person lead the best life they can, and to reduce the burden of living with this condition.”

If you would like to find out more, please contact brightontinnitusgroup@gmail.com or 01273 664809 if further information is needed. Otherwise feel free to come along unannounced. **Ends**

Editors Notes

- The BTA is an independent charity which supports over 1 million people per year who experience tinnitus and advises medical professionals from across the world. It is the primary source of support and information for people with tinnitus in the UK.
- The BTA needs to raise £975,000 each year to continue their UK wide support. Donations can be made via
- **Not">www.tinnitus.org.uk/donate**
- Not">... an illness or disease, tinnitus is a term that describes the sensation of hearing a noise in the absence of an external sound. The noise can have virtually any quality. Ringing, whistling, and buzzing are common, but more complex sounds may also be reported.
