Charity Golf Day drives support for the Chilterns Neuro Centre

Monday 8 June, 2026

The Chilterns Neuro Centre welcomed golfers, sponsors and supporters to the prestigious Stocks Golf Club for its annual Charity Golf Day, raising almost £12,000 to support people affected by MS, Parkinson's and strokes across the local community.

The event brought together about eighty golfers for a day of friendly competition on one of the region's most exclusive golf courses, while helping to fund the Centre's specialist therapies, wellbeing services and support programmes.

After a closely contested tournament, the team from Better Mobility, comprising of Lee Warner, Andy Wynn, Ryan Hirst and Bradley Dyer, emerged as the overall team champions, delivering an impressive performance across the course. Their victory was helped in large part by Andy Wynn who was also the individual winner on the day.

The event was generously supported by EIC Insurance, whose sponsorship helped ensure the success of the fundraising event.

"We are delighted to support the Chilterns Neuro Centre and the incredible work it does for people affected by neurological conditions," said Charlie Hicks, Managing Director at EIC Insurance. "The Golf Day was a fantastic opportunity to bring the local business community together while raising funds for a truly worthwhile cause. Congratulations to all the winners and everyone who took part."

The day concluded with a prize presentation and fundraising activities, with guests celebrating both the sporting achievements and the positive impact their support will have on local people living with neurological conditions.

"We are incredibly grateful to Stocks Golf Club, our sponsors, players and volunteers for making this year's Charity Golf Day such a success," said Kirsty Robson, Community and Events Fundraiser at the Chilterns Neuro Centre. "Every pound raised helps us continue providing life-changing services and support for people living with neurological conditions. Congratulations to Andy Wynn and the rest of the team at Better Mobility on their fantastic achievements."

The Chilterns Neuro Centre supports hundreds of people each year through a range of services including physiotherapy, exercise classes, wellbeing activities and practical support, helping individuals live well with neurological conditions.
