Chelmer Valley Product Launch

Monday 24 September, 2018

Chelmer Valley Brick Company Ltd of Brentwood, Essex is proud to announce the launch of its new Kessel Garden range of clay pavers. Kessel Garden pavers complement Chelmer Valley's existing collections of top quality brick pavers and offer customers more outstanding ways to create beautiful landscaping and paving designs. This range of pavers is available in a variety of unique colours to produce impressive results in the domestic paving sector or landscaping environment.

Chelmer Valley is a specialist provider of exclusive clay pavers to all sectors of the market in the UK, whether for domestic landscaping projects or commercial infrastructure schemes. Clients include local authorities, architects, contractors, garden designers and homeowners.

The Kessel Garden range of clay pavers is sourced from Vandersanden, based in Belgium. Vandersanden is a family-owned business, and has an excellent global reputation as one of Europe's largest brick producers. The addition of the Kessel Garden range of pavers adds even more colour options to the Chelmer Valley product line. Customers can select coloured pavers with different finishes from the different ranges in a number of shades, including orange, purple, yellow, white and beige.

Paul Menzies, Managing Director of Chelmer Valley, comments: "Our continued partnership with Vandersanden reinforces the strengths of both companies and enhances the dominance for both parties in this area of expertise".

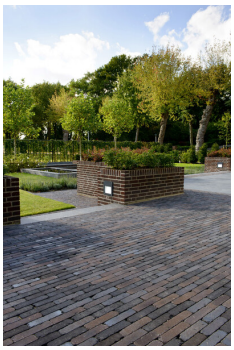

Brick pavers from Vandersanden are particularly suited to commercial paving and home landscaping applications, and their addition to the Chelmer Valley line-up builds on the success already achieved by the Nostalgie and Commercial paver collections.

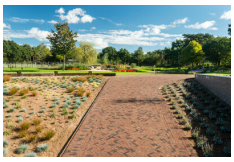

Chelmer Valley was founded by Paul Menzies in 2002 and offers customers the specialist clay paving required across all sectors of the market. The company purely focuses on clay pavers in a variety of sizes and finishes, alongside Tudor 2-inch size brick products. Visitors to the Chelmer Valley showroom in Brentwood will find extensive displays of all current products and can also benefit from helpful advice and assistance to help source the brick pavers best suited to their requirements.

Vandersanden recently won the first Belgium Best Managed Company award and has a particular interest in environmental considerations. Their company ethos complements Chelmer Valley's focus on supplying environmentally-friendly, clean brick pavers created using natural clays and sand. There are no contaminants or toxins used in the manufacture of these clay pavers, so they pose no risk of contamination or ground pollution.
