

## CHOOSING A NEW ENTRANCE TO YOUR HOME

Thursday 10 May, 2018

There's never been a better time to look at replacing your entrance door, says award-winning composite door manufacturer Solidor and their nationwide network of over 350 trusted local installers.

Modern composite door design embraces the rigidity of a solid timber core with the near maintenance-free durability of a through colour door skin, which offers a life expectancy well in excess of 25 years. So there's all the looks of painted and grained timber, yet with the longevity of modern materials and advanced manufacturing processes.

With a Solidor you can also choose from 12,000 colour combinations and a vast array of contemporary and traditional door designs on their revolutionary, interactive Door Designer in order to create something as unique as your home. There's also the option to have a different colour and finish inside and out, as each Solidor is individually manufactured and crafted to your chosen design.

With security one of the key drivers in new entrance door sales, there are also additional guarantees to benefit from, with a £1,000 security guarantee from the best in class Ultion lock cylinder offered on all doors. This warranty can be further extended to £5,000 with the impressive Lock Lock security handle. Your new entrance door should not only look exceptionally beautiful, but be the ultimate deterrent against burglars.

If you want further inspiration then visit [www.solidor.co.uk](http://www.solidor.co.uk) and download the new 52 page Solidor composite door brochure, or you can use their unique Door Designer and create your very own Solidor in just a matter of minutes. Design it, save it, share it!
