

# Clean Planet Group Announces Strategic Investment by FTI Infrastructure to Support Waste-Plastic Advanced Recycling Expansion, and Sustainable Aviation Fuel (SAF) Infrastructure Deployment

Wednesday 18 February, 2026

[Clean Planet Group](#) has received a strategic investment from FTI Infrastructure (NASDAQ: FIP), managed by Fortress Investment Group. This marks the next phase of a partnership focused on scaling advanced waste-plastics recycling and sustainable fuels infrastructure across Europe and North America.

The expanded investment builds on the previous collaboration between FTI Infrastructure and Clean Planet Group in the US and reflects a growing ambition to advance Clean Planet's technology, project pipeline and international market opportunity.

The strengthened partnership broadens FTI Infrastructure's support beyond individual US project development to the wider Clean Planet platform.

Clean Planet operates across three integrated divisions: Energy, which develops, builds and operates advanced recycling facilities; Technologies, which focuses on proprietary refining processes and low-carbon fuels innovations; and the Clean Planet Foundation, the not-for-profit arm supporting education, engagement and impact. Together, our platform addresses two structurally linked global challenges: unmanaged plastic waste and the decarbonisation of hard-to-abate sectors.

Clean Planet Technologies' progress in plastics-to-SAF aligns closely with FTI Infrastructure's long-standing commitment to sustainability and energy-transition assets and reflects the growing importance of SAF as a scalable, near-term solution for reducing aviation emissions. Last month, Clean Planet Technologies received grant support through the UK Government's Department for Transport's SAF Clearing House.

**Dr Andrew Odjo, CTO and Co-Founder of Clean Planet Group**, added:

"FTI Infrastructure has been a committed and highly aligned partner, and this next phase of investment enables our ambition to scale internationally. Beyond our established advanced recycling business, we are building a technology-led platform that can supply lower-carbon fuels to sectors that urgently need them, which makes this a particularly exciting moment for the Clean Planet."

The extended partnership will support the continued rollout of Clean Planet's ecoPlant facilities, which produce circular feedstocks for downstream petrochemical manufacturers, further development of its clean fuels technology portfolio, and progression towards commercial-scale SAF production.

## About Clean Planet Group

The Clean Planet Group believes in clean air, clean oceans, a clean planet. Since 2018 the group has been tackling the plastic waste & climate crises. Through the group companies they [build infrastructure](#), [develop new technologies](#), [educate and take action](#) to enable the sustainable use of plastics, and reduction of carbon emissions across our planet.

## About FTI Infrastructure Inc.

[FTI Infrastructure Inc.](#) primarily invests in critical infrastructure with high barriers to entry across the rail, ports and terminals, and power and gas sectors that, on a combined basis, generate strong and stable cash flows with the potential for earnings growth and asset appreciation. FTI Infrastructure Inc. is externally managed by an affiliate of Fortress Investment Group LLC, a leading, diversified global investment firm.
