Clutch Recognizes Leading App Developers in the United Kingdom

Tuesday 1 December, 2015

This new research identifies app development agencies with exceptional records of client service in the United Kingdom.

WASHINGTON, December 1st, 2015 — Today Clutch published a report update highlighting the Top UK App Developers. The research leverages Clutch's Leaders Matrix methodology, which maps each firm's focus in app development and user experience design against their ability to deliver on client expectations.

The leading app development companies are: DMI, Intellectsoft, Fueled, Mubaloo, Apadmi, hedgehog lab, Locassa, Waracle, nomtek, The Sound Pipe Media, Brightec, Appitized.

“The UK is one of the largest hubs for high-quality app development in Europe,” stated Ryan Stevens, Senior Analyst at Clutch. “These firms have proven that they can take a client's concept, develop an application, and compete for clients on a global level.”

Clutch analysts conducted a thorough assessment of the firms' capabilities based on a multitude of factors including market presence, company experience, client feedback, and industry recognition.

Clutch's effort to identify leading app development companies remains ongoing, and Clutch encourages firms with a proven track record of success to apply for inclusion in future updates. Upcoming publications will highlight leading boutique app development agencies with less than fifty full-time employees.
