If you're interested in generating high-quality leads from Google, here's an amazing offer from Codarity…

We guarantee to create an SEO strategy that generates a positive return on your investment in under six months.

If you don't make your money back in that time, we'll work for FREE until you do!

In effect, you can't lose money on this deal and we're assuming all the risk.

Who Are We And How Can We Guarantee Results?

We're a digital marketing agency based in Reading, Berkshire.

One of our specialties is creating powerful SEO campaigns for service businesses that generate long-term, sustainable growth… ***without*** using any dirty, underhanded tactics that'll get your website blacklisted.

And…

We're able to guarantee our work because we use a proven 5-step process that delivers results for our clients time and time again.

Here's a look at what's involved:

First we...

Develop A Clear Path To Success

A ton of businesses have almost no clue what their SEO agency are doing (if anything) to grow traffic and win them customers.

The first thing we do is develop a well-researched SEO strategy and clear roadmap.

Here you'll discover what needs to be done… why we're doing it… how long it will take… and… your ***expected growth and ROI.***

We then….

Enhance And Optimise The Performance Of Your Website

Are you currently ranking near the bottom of page 1 of Google (or even stuck on page 2/3 where almost no one looks)?

Our SEO experts optimise what you're already ranking for and push you toward the very top of the search engines… ensuring you get a sharp boost in traffic early on into your SEO campaign.

That's not all:

We also improve the user experience of your website.

How?

A few ways we do this are by enhancing the speed of your website.... helping with content writing... intensifying lead generation opportunities... and.... making certain every page of your site is working

towards a unified goal of growing your ROI.

In step three, we...

Create A Scalable Content Marketing Campaign

We scope out your competitors and get an ‘inside look’ at what search terms they’re ranking for, discover what’s working for them, how they’re driving organic traffic and what type of content they’re creating.

We use these insights to create a *‘gap-analysis’* and close any distance that exists between you and your competition... *fast*! (In a lot of cases, knock them off their perch and “steal” their traffic and customers).

Here’s how we do it:

We get deep inside your prospects head and research *all* the questions and topics they are looking for online.

This gives us the tools to build compelling content that answers questions at *every* stage of the sales process… allowing us to create, promote and grow your organic traffic through valuable content that helps close ***a lot*** more sales with ease.

Then we move on and…

Market Content To Acquire Backlinks And Referral Traffic

This goes hand in hand with step three of the process…

We target your ideal audience online and get smack-bang in front of them with compelling content.

However, we go a step further and…

Get high-quality backlinks from reputable sites to help you rank and build authority for your website. Doing so makes it much easier for you to rank for highly competitive terms in the future.

And finally, we get to...

Measuring Success, Reporting And Strategic Review

You’ll get real-time reports you can view whenever you like.

These reports cover all of your KPI's, goals and guarantee you’re never left in the dark.

Plus, you get regular consulting calls outlining your progress and details of the next steps we’re going to take.

Bringing It All Together:

This *total* approach to SEO makes for a sure-fire way to do two things:

1. Generate high quality leads every month…
2. Create explosive, sustainable growth for the long-term

How Have We Done This For Other Clients?

Jamie Castle, (owner of Eclipse Global), grew revenue 44.2% in under a year!

He says: *"We had been struggling with our website not ranking well on Google, but not knowing where to look I was recommended to try Codarity. I have not looked back. They are extremely helpful and on point with helping us to achieve our goals."*

Here's what a couple of other happy clients say…

Jason Fuller from Tethys Energy Says: "*Simply brilliant! I run a small solar panel installation company. After trying out a few other online marketing companies over the years and seeing poor results, I was hesitant to take the plunge a 3rd time. However, this time my experience has been amazing. Codarity have explained exactly what they are doing in an easy to understand way and results were immediate. I highly recommend them, they have been great for my business.*

Lisa Bedlow from Gabriels Education Says: "*The quality and standard of the work produced for our website was far beyond my expectations. The team fully understood what we wanted and produced a clear visual and informative website that fully met our needs..."*

What Should You Do If You're Interested?

We'll research your business website and know how to deliver the results you expect at a price that doesn't make your eyes water.

And, we're backing up this confidence with a "guaranteed results" offer that makes certain you gain a positive return on your investment.

If you're interested in us and our unique offer, you must schedule a FREE strategy call right now.

We'll take the time to understand your current market position, what your goals are, what your ideal customers expect, and create an SEO strategy designed for long-term growth.

The call will be consultative and diagnostic in nature. You're under no obligation and we promise there will be no pressure selling whatsoever.

If at the end of the call you're in the slightest bit interested in what we have to offer, we'll put together a traffic and ROI projection report for FREE (worth £585). This will give you a clear picture of the growth you can expect if you put us to work for you.

To get the ball rolling, simply follow the link below and choose a time and date that's convenient for you. Once you've done that, we'll send you a confirmation email with details of your appointment.

That's all there is to it.

Are there Any Catches?

Yes.

You must be willing to let our team of SEO experts take full control of your entire SEO operation.

Naturally, you have the opportunity to review and approve everything we're doing, but…

We simply can't guarantee success if there's any interference in us being able to fully implement the strategy we believe will get you results.

P.S. **The bottom line is this:**
If you're frustrated at being stuck on page 2 of Google… tired of your competitors outranking you and "stealing" your customers… have been penalised by Google… or are just curious about what a new SEO agency could do for you…

Then you owe it to yourself to jump on a strategy call with us. Not doing so leaves you stuck, relying on unpredictable referrals or constantly paying for expensive ads.

Act now. It could be the most profitable business decision you ever make!
