Crowdcube product of the year, JIVE Bike, now open for reservations

Tuesday 4 March, 2014

JIVE Bike was awarded product of the year 2013 by Crowdcube on February 27th 2014 having successfully raised over £160,000 via the well-known crowdfunding platform.

"This award really shows how far the JIVE team has come. Just a spark of an idea over a year ago, we now have a beautiful bike nearing full production and we're pleased to open our doors for commuters and cyclists to reserve. The JIVE bike offers all the benefits of having a bicycle, without any compromises" said Marcin Piatkowski, Founder& CEO.

As unit sales of bicycles continue to grow in the UK and across Europe, the folding electric JIVE bike is positioned well to address the demanding needs of many urban and city commuters.

With the chainless drive-train and all the mechanics sitting neatly inside the engineered frame, the JIVE bike design offers a cleaner hassle free cycling experience. JIVE Cyclists can choose from three modes, full electric, full manual and assisted – and cover a range of 20 miles per charge on one charge.
Re-charging is complete in 2 hours via an electric socket and it folds in four simple ergonomic moves to fit tidily under a desk.

Pricing and availability
Reservations for the £1,500 JIVE bike are now open on a 50/50 basis; half now, half before delivery.

Shipping to Europe, with other parts of the world by prior agreement here.
