# Datatron wins coveted Canon Gold Solutions Partner status for 2022

**Tuesday 3 May, 2022**

**North Shields, UK** - Today, Datatron announced that it has been awarded the coveted Canon Gold Solutions Partner status for 2022.

Datatron has been a Canon partner since 1999 but this new award recognises a higher level of achievement and partnership for the North Shields-based scanning bureau and electronic document management specialist.

Only Canon's top partners are recognised with Gold status. It acknowledges companies, like Datatron, that provide a high level of technical expertise and support to their customers and, especially in Datatron's case, users of Therefore software.

'In addition to our Therefore Professional Services, Datatron is in the unique position of being able to support both Canon and Datatron clients with our scanning services,' explains David Popay, Datatron's founder and managing director. 'We've helped organisations like Nissan, Formica, East Lothian Council and Newcastle Upon Tyne Hospitals NHS Foundation Trust tame their paperwork, cut red tape and streamline business processes.'

'Canon Gold Partner status gives clients the confidence that Datatron can deliver the highest levels of professional service,' adds David Popay, 'and the reassurance that we definitely know what we're doing.'
