DBS Central's Optimised DBS Check Systems Deliver 1-Hour Processing

Tuesday 30 August, 2016

London, United Kingdom, Tuesday, August 30th, 2016

The DBS Central agency's streamlined online platform has formally announced that it is capable of delivering DBS check processing times of just one hour.

Today, DBS Central, a leading Disclosure and Barring Service, DBS provider in the United Kingdom for individuals and companies, has confirmed that its faster and more user-friendly online portal has tracked an impressive processing turnaround time of just one hour.

From the moment of ordering, the company has documented the successful processing of deliveries to loyal customers in an industry leading 60 minutes. The DBS structure in the UK, which took over from the old Criminal Records Bureau, CRB and the Independent Safeguarding Authority, ISA, can lead to employers making safer hiring choices, especially when assisting vulnerable people in society and children.

"A delivery time of one hour sets us apart as one of the country's most efficient DBS check providers," asserted, Dan Mayfield, Managing Director, DBS Central. "We are thrilled with the results tracked as a result of our investment in state of the art new systems for DBS check applications for all 7 categories currently in operation."

From its headquarters in Central London, DBS Central and its team of qualified professionals including an expert translator for international clients, support and advise people seeking to apply for DBS related services. On the philanthropic side, the company is proud to waive fees for a number of registered charities that are legally obliged to go through standard checks.

About:

DBS Central was established in 2016 to disrupt DBS check services in the UK by delivering turnaround times of just one hour. Visit our revamped website for all of your DBS needs today: https://www.dbscentral.co.uk/
