Wednesday 27 October, 2021

Winners are honoured by the voting public for their dedication & determination to improve the lives of animals

Animal welfare organisation Dog Desk Animal Action joined forces with dog DNA database DNA Protected to announce the winners of the 2021 awards in an online event in aid of Dog Desk Animal action's spay & neuter programme. Dog Desk Animal Action aims to spay & neuter two thousand homeless dogs to reduce street suffering in stray communities.

Michelle Robertson Dog Desk Animal Action director said "It has been an absolute pleasure to run the awards this year. Each candidate in every category was nominated by & voted for by members of the public. All nominations represent the best there is in the animal welfare community & each winner gives us hope for a better future as well as inspiring us to do the best we can for the causes we care about"

"It is heart warming to tell the stories of some of the bravest people in the animal welfare community such as a lady who rescued ninety-one pigs from an abuse case & cares for them single handed, working from dawn to dusk to ensure their needs are met"

The awards were held online & free to view as Dog Desk Animal Action, who run a pet food bank had concerns that ticket sales, although much needed, may be a barrier to those suffering financial hardship. Michelle told us that "inclusion is important to our organisation, nobody should be excluded from an event of this nature for financial reasons. We asked for donations from attendees who were able to give instead of charging a fee that not everyone may be able to afford"
