

Dogecoin has been officially added to the list of currencies supported by ALFACashier

Wednesday 21 May, 2014

May 21, 2014: ALFACashier, an increasingly popular global [currency exchange service](#), announces the inclusion of Dogecoin into its wide selection of source and destination currencies. From now on, users can purchase Dogecoins, exchange them for other cryptocurrencies and regular electronic money, as well as withdraw funds to PayPal accounts. Dogecoins can be used for USD/EUR transfers to any bank account and automatic conversion to all supported currencies without any limitations.

Dodgecoin is one of the latest trends in the world of electronic currencies that is rapidly gaining popularity among traders and regular users. Dodgecoin is a cryptocurrency, a type of currency characterized by its anonymous, decentralized and secure nature. This currency can be used for purchasing goods and services on all websites supporting it with the help of convenient e-wallets installed on a computer, smartphone or websites themselves. Apart from this, Dodgecoin can be freely exchanged for all other currencies, both electronic and conventional, without limitations of any sort.

"As a modern [currency exchange platform](#), we strive to support as many major currencies as possible and add new ones as soon as they are accepted by the global community and e-commerce providers," noted Helena Schwartz, Head of Customer Service, ALFACashier. "Dodgecoin is a new name on the market that is quickly gaining popularity, so we could not ignore it for obvious reasons. Its recent inclusion to our list of supported currencies offers our users more flexibility and comfort in exchanging their electronic funds and makes us one of the most versatile online exchanges."

Pricing and Availability

ALFACashier offers free registration, but charges a commission on each exchange operation performed by its members.
