Nick Saban is an American Football coach and head coach at The University of Alabama since 2007. He has earned a total of US$32million, making him one of the highest paid football coaches in the United States. He also appeared on the September 1, 2008 cover of Forbes magazine as 'The most powerful coach in sports'.

Many people just see Saban as being a great coach, but behind his coaching ability comes his sales skills. Saban has to continuously recruit, and every year, he recruits the best players because he gets people to buy into his program. Because of this, he continues to inspire businessmen and women on how to approach success.

In a recent article on entrepreneur.com ('*Winning Sales Strategies from National Champion Alabama Roll Tide Football Coach Nick Saban'* published on 3rd March 2016) Nick Saban revealed his top tips on how to succeed in life and business. EA Worldwide Acquisitions has shared these below:

- **You must maintain success**
- **Dominate**
- **Invest in your business**
- **Be relentless**
- **Have the correct priorities**

In order to be successful in life and business, an individual must work hard at all times in order to continue being successful. Success is not final, and it is something that needs continuous work.

In the business world an individual must be in a position to dominate and the best way to do this it to do what others refuse to.

It is important to invest in a business - successful people will invest time, money and energy into improving themselves.

If a person wants to be successful in life and business then they must have a relentless attitude and never give up.

Ensure that targets and priorities are in the right order to achieve success

"Businesses and individuals can take enormous amounts from the advice given by Nick Saban. Even though he is within the sports coaching industry, his attitude towards achieving the best and being successful can traverse across numerous different sectors," said Josh Cote, Managing Director of EA Worldwide Acquisitions. "If you want to be the best, then you need to learn from the best," added Josh Cote.
