EE today announced the launch of the **4GEE WiFi** and **4GEE WiFi Mini**, two new mobile broadband devices that connect WiFi-enabled devices to EE’s award winning superfast 4G network - allowing customers to create their own personal, secure WiFi hotspot.

A 4GEE WIFI AND CHARGER IN ONE

With a new curved design, the CAT 6 enabled 4GEE WiFi device allows users to access EE’s superfast 4G+ speeds to provide a higher capacity connection on up to 10 devices simultaneously. The new 4GEE WiFi also comes with a powerful 5,000 mAh battery bank, providing over 24 hours of usage and supports Qualcomm Fast Charge 2.0. The device can also be used as a battery pack to charge separate devices and supports WIFI 802.11a/b/g/n/ac.

4GEE WiFi is available on a range of pay monthly price plans starting from £11 per month, with a £49.99 one-off upfront cost. It is also available on pay as you go for £79.99.

4GEE WIFI MINI

The new ultra-portable 4GEE WiFi Mini is a more compact and even more convenient way to stay online on your laptop or tablet. It’s 15% smaller than its predecessor and is ideal for those who are always on the move. The 4GEE WiFi Mini supports WIFI 802.11b/g/n.

The 4GEE WiFi Mini will be available on a range of pay monthly price plans, starting from £11 per month, with a £19.99 one off upfront cost. Alternatively, it is available on pay as you go for £39.99.

Sharon Meadows, Director of Devices, EE said: “As leaders in the UK 4G WiFi market, we’re continually looking to launch the latest mobile broadband devices. Our new 4GEE WiFi hotspots are designed for those who want a compact device that makes the very most from our award winning network when on the move.”

The 4GEE WiFi and 4GEE WiFi Mini are available from EE stores, EE telesales and the EE online shop. For more information and full pricing details, please visit ee.co.uk.
