Ekim Saribardak accepted into Forbes Technology Council

Monday 9 August, 2021

London, 2021 — Ekim Saribardak, the CTO of Rewire Security, a GPS tracking and Telematics service provider company, has been accepted into Forbes Technology Council, an invitation-only community for world-class CIOs, CTOs, and technology executives.

Ekim Saribardak was vetted and selected by a review committee based on the depth and diversity of his experience. Criteria for acceptance include a track record of successfully impacting business growth metrics, as well as personal and professional achievements and honors.

“We are honored to welcome Ekim Saribardak into the community,” said Scott Gerber, founder of Forbes Councils, the collective that includes Forbes Technology Council. “Our mission with Forbes Councils is to bring together proven leaders from every industry, creating a curated, social capital-driven network that helps every member grow professionally and make an even greater impact on the business world.”

As an accepted member of the Council, Ekim Saribardak has access to a variety of exclusive opportunities designed to help him reach peak professional influence. He will connect and collaborate with other respected local leaders in a private forum. Ekim Saribardak will also be invited to work with a professional editorial team to share his expert insights in original business articles on Forbes.com, and to contribute to published Q&A panels alongside other experts.

Finally, Ekim Saribardak will benefit from exclusive access to vetted business service partners, membership-branded marketing collateral, and the high-touch support of the Forbes Councils member concierge team.

“I am very excited to join the Forbes Technology Council. I look forward to collaborating with other C-level executives in the Council, and provide insight and information on current technology issues and trends around Internet of Things for Vehicles and GPS Tracking systems” said Saribardak when asked about joining the Technology Council. “I’m especially interested in sharing insights and insider information about the trajectory of where location and sensor monitoring for vehicles is headed in the near future.”

ABOUT FORBES COUNCILS
