

## eMaint Expands N.J. Office to House Growing Team

Tuesday 16 July, 2013

July 16, 2013 (Marlton, N.J.) – eMaint Enterprises, a world leader in cloud-based maintenance management services, today announced that it has expanded its Marlton, N.J. office and will officially open a new space on July 18.

The new location, just across the street from eMaint headquarters, will house 12 employees from the sales and marketing teams, freeing up more space in the main building for the expanding services teams.

“The foundation of our success has always been exceptional customer service,” eMaint CEO and President Brian Samelson said. “It has been a priority to expand our professional services and frontline support teams to keep pace with our overall growth and ensure our customers receive exemplary service as we continue to develop.”

The opening of the new Marlton office comes on the heels of a recent expansion into Florida with the addition of several members to the front-line support and professional services teams. eMaint recently completed renovations on their current building in Marlton to house its expanded technology team.

The company employs 42 professionals and is actively recruiting eight more. In addition to its Marlton office, the company has a base in Estero, Fla., and will soon announce the opening of new offices in Florida and Europe.

“As our team and services continue to grow and evolve, it’s important for us to expand and update our workspace,” Samelson said. “This expansion will help strengthen our overall team, which is at the core of our company’s growth and continue creating job opportunities for seasoned technology professionals, as well as qualified recent college graduates.”

eMaint recently earned a 2013 South Jersey Entrepreneur Award from the Philadelphia Business Journal for its rapid growth. The company saw revenue growth of 42 percent in 2012 over the previous year and 138 percent revenue growth in 2012 over a three-year span. The staff has more than tripled since the beginning of 2010.

The company was also named the second-fastest growing company in South Jersey and was ranked as one of the 2012 fastest-growing privately held business in the Philadelphia region by the Philadelphia 100.

eMaint has been recognized as a small business innovator by SmartCEO and won a Best Software as a Service (SaaS) award from THINKstrategies, Inc. based upon the measurable business benefits the eMaint X3 Solution delivers to clients.
