Esmere Gardens Nursing Home Sets a New Benchmark in UK Care with On?Site Private GP Care Included as Standard

Monday 20 April, 2026

Esmere Gardens Elevates All?Inclusive Care with On?Site Private GP Service for Residents

Moreton?in?Marsh, Gloucestershire – April 2026

Esmere Gardens Nursing Home, a luxury care home in the Cotswolds, has announced the introduction of a UK?leading healthcare enhancement, integrating on?site private GP care into its all?inclusive residential, nursing and dementia care offering from 27 April 2026.

Delivered in partnership with Concierge Medical, the service provides residents with regular, face?to?face access to a private GP, working alongside the home's clinical and care teams to support proactive, responsive medical care within the nursing home setting.

The move places Esmere Gardens among a small number of UK care homes offering this level of integrated medical support, responding directly to growing concerns from families around safety, continuity of care and access to timely healthcare.

A New Standard of Peace of Mind for Families

For families searching for a care home, nursing home or dementia care for a loved one, peace of mind is often the single most important factor.

Questions commonly asked include:

- Who is overseeing my loved one's health day to day?
- How quickly will changes be noticed?
- What happens if something goes wrong?

At Esmere Gardens, the inclusion of an on?site private GP helps remove uncertainty. Residents are supported by a doctor who knows them personally, enabling earlier intervention, quicker clinical decisions and reduced reliance on external appointments or unnecessary hospital visits.

This approach supports both resident wellbeing and family reassurance, particularly for those navigating complex healthcare needs or living with dementia.

Care Beyond the Traditional Nursing Home Model

Hospital visits can be disruptive and distressing, especially for older people and those living with cognitive impairment.

By delivering more medical care within the home itself, Esmere Gardens helps residents remain in familiar surroundings, supported by a consistent team who understand their needs, routines and preferences.

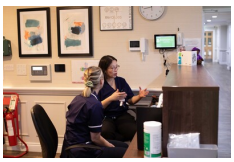

The GP works closely with nurses and carers to provide:

- Regular health reviews
- Same?day medical assessments when required
- Ongoing oversight of long?term conditions

This joined?up approach allows care to remain personal, calm and responsive, supporting both physical health and emotional wellbeing.

Strengthening an All?Inclusive Approach to Care

Esmere Gardens is known locally for its all?inclusive care model, designed to remove uncertainty around costs and services for families.

From residential care and respite care to nursing support, dining, activities and now private GP access, everything is provided transparently and shaped around the individual.

By integrating medical care into everyday life at the home, Esmere Gardens continues to raise expectations of what families should expect from a modern care home.

Raising Expectations of Quality, Safety and Wellbeing

As the demand grows for higher standards in elderly care, nursing care and dementia care, Esmere Gardens is helping to redefine what quality looks like in a care home setting.

The combination of luxury surroundings, experienced care teams and proactive healthcare places the home at the forefront of care that prioritises dignity, safety and wellbeing beyond the traditional care home model.
