ESSENTIAL PHYSIOTHERAPY SERVICE FOR CHILDREN AND YOUNG PEOPLE WITH DISABILITIES LAUNCHES IN SUSSEX

Sunday 29 April, 2018

Gaps in the physiotherapy services for children and young adults in Sussex will be plugged by an innovative physiotherapy social enterprise

A not-for-profit physiotherapy service in Sussex is launching a fundraising campaign to buy essential therapy equipment and tools to support their hydrotherapy and land-based therapy service for infants, children and young adults with neurodisabilities. Money raised will enable them to deliver much needed physiotherapy services to patients in Sussex.

StarPhysio specialises in hydrotherapy and land-based treatment for disabled children and young adults and needs to grow this service to meet the high demand they have from their local community. Set up by three local physiotherapists with over 40 years' experience, **StarPhysio's** goal to provide an accessible and inclusive therapy service is at the heart of its social mission.

StarPhysio are asking the local community to visit their fundraising website at http://tiny.cc/makeasplash where you can view a short film of our work with some of the children and young people that they treat. It articulates the value and benefits of our mission by those directly involved. They also invite you to take our look at their community interest company website www.starphysio.org to find out more about their work and who they are. Both will be live from 4th May 2018.
