Eternal Web Ltd. Now Recognized as AWS Advanced Tier Partner

Monday 16 June, 2025

Accelerating Cloud Innovation and Digital Transformation Across the UK and Beyond.

Eternal Web Ltd., a global IT services and consulting company, is proud to announce its recognition as an **AWS Advanced Tier Services Partner**. This recognition from Amazon Web Services (AWS) highlights Eternal Web's deep technical expertise, proven customer success, and growing presence in delivering secure, scalable, and cost-effective cloud solutions — especially across the UK enterprise and mid-market sectors.

Since its inception in 2013, Eternal Web has focused on solving core business challenges with technology — not just delivering solutions but engineering platforms that help clients thrive in a competitive digital economy. The company has consistently evolved to meet the demands of cloud-native transformation, AI integration, and enterprise application development.

With a growing footprint in the UK tech landscape, Eternal Web is empowering local businesses through AI-augmented solutions that combine the speed of machine intelligence with the precision of human insight. Whether it's helping UK-based companies migrate to AWS, modernise legacy infrastructure, or build autonomous systems, the company delivers future-ready platforms tailored for compliance, scalability, and performance.

This accomplishment belongs to our clients as much as it does to us," said Eternal Web Ltd. CEO. "It shows our commitment to delivering robust, practical cloud solutions that crack real business challenges.

Achieving AWS Advanced Tier Partner status unlocks access to advanced AWS programs, innovation accelerators, and strategic technical support — all of which directly benefit Eternal Web's UK clients through improved performance, reliability, and faster time to value.

"We see the UK as a strategic region for cloud growth and innovation," said Nirav Shah , CEO of Eternal Web. "This partnership milestone allows us to support UK organisations with even more depth, agility, and accountability as they scale their digital operations with AWS."

In addition to cloud and app development, the company supports digital transformation initiatives across sectors like retail, fintech, manufacturing, and professional services.

With a client-first mindset and a strong foundation in innovation, Eternal Web Ltd. persists in supporting businesses in revving their digital journey by offering agile, scalable, and resilient AWS-powered solutions. The company focuses on helping startups, SMEs, and enterprises acknowledge the cloud's full potential.

As an AWS Advanced Tier Partner, Eternal Web Ltd. is poised to accelerate its mission of facilitating cloud adoption for businesses of all sizes, with a robust focus on skillfulness, performance, and ROI. Clients can expect a heightened level of service and smarter solutions that match the pace of change in today's vibrant market landscape.
