

Eurekos Systems achieves international ISO/IEC 27001 and ISO/IEC 27701 Certifications for best-practices information and privacy security

Tuesday 13 October, 2020

Eurekos now offers the highest level of global information and privacy security, having achieved both ISO/IEC 27001 and ISO/IEC 27701 certification. These are the most widely recognized international standards for best practices in Information Security Management Systems (ISMS) and Privacy Information Management System (PIMS). Thus, the [Eurekos Learning Management System](#) offers clients increased reliability and security of systems and information, as well as improved customer and business partner confidence.

"We want our customers to sleep well, knowing that we are one of the few LMS companies in the world that offer this highest level of information and privacy security, over and above all of the prevailing privacy laws such as GDPR." -Anders Willumsen, CEO, Eurekos Systems

Certification Qualification

DNV GL, a global quality assurance and risk management company, was the lead auditor reviewing Eurekos' application and qualifications, and granting both the 27001 and 27701 certifications. As a world-leading certification body, DNV GL helps businesses assure the performance of their organization, people and systems, through certification, verification, assessment and training.

Eurekos: A relentless focus on learning

The Eurekos LMS is built from the ground up using innovative, proprietary "building block" architecture. Their unique approach brings educators:

- Unprecedented ease and speed of content development
- Integrated global video streaming
- Multi-currency ecommerce
- Powerful administration and insightful analytics
- The identification of critical data to support continuing skills development (CPD), competency management, and compliance training.

Integrating all best-of breed-solutions, the [Eurekos LMS](#) creates a single ecosystem, a single source of the truth. Contact us and find out about the amazing improvements with Release 9.

Eurekos was recently named to eLearning Industry's Top 20 LMS Software. Their methodology is based on three types of scores:

1. Customer Satisfaction (CSAT) – the degree of customer happiness with a product, service or interaction
2. Customer Effort (CEF) – the amount of effort required to get support
3. Customer Expectation (CEX) – the gap between customer expectations and service received

"Eurekos has a home run here. The built-in authoring tool is a slam dunk and it has very strong content curation. Functionality and UI/UX is good. The roadmap track record is excellent. You can do a lot with this: classroom management, competency management, and I could go on." -Craig Weiss
