# Expert Guide to ISO 26000 Corporate Social Responsibility released by SocialBox.biz

**Monday 28 December, 2015**

SocialBox.biz (London UK based social enterprise company) has released the Expert Guide on ISO 26000 standard for Corporate Social Responsibility. The guide provides information about major components of corporate responsibility.

The guide was developed by SocialBox.biz to introduce new methods for companies to go above and beyond the bare minimum standards required by law. SocialBox.biz designed the guide to give its readers an easy-to-understand overview and some ideas to help implement the core elements of ISO 26000.

It is one thing to abide by the requirements but it's another to go the extra mile and be able to demonstrate good or excellent corporate responsibility," said Peter Paduh, Chairman of SocialBox.biz.

The expert guide provides readers with guidance for using ISO 26000 by covering concepts and terms, the background, integration and implementation and much more. The guide also looks at key concepts and 7 Core Principles to help better guide businesses.

ISO 26000 is a non-auditable standard published as guidance rather than a strict method to follow. The professional guide is now available on SocialBox's site here:https://www.socialbox.biz/iso-26000-expert-guide-socialbox-biz/

For more information on the guide, or about SocialBox.biz, visit https://www.socialbox.biz

Socialbox also recently launched its Constant Positive Impact Blog sharing practical ways to demonstrate corporate social responsibility and make a positive impact on society with a number of contributing blogers and freelance writers who are also passionate about being a force for doing good:

About SocialBox.biz
SocialBox.biz is providing digital storage and ethical IT recycling of servers and laptops for corporations in the areas of London or the United Kingdom. SocialBox.biz provides all of its digital services through the Cloud and is consistent with ISO 27001 for data security.

SocialBox.biz is headed by a team of industry veterans and social entrepreneurs with experience in helping unemployed and disadvantaged young people become upstanding citizens of our society and thousands socially excluded older people with access to computers and the internet, receiving numerous awards for positive impact on society.

As a socially focused business, the majority of the company's profits will be reinvested into its activities and used for initiatives such as to support refugees in the UK.

The hopes are to help integrate the less privileged into greater economic activity as well as put computers into homeless shelters and older people's day centres.

One of the team's key business breakthroughs is that over the past decade, they have proven that socially responsible and environmentally friendly enterprises can have a successful and sustainable business model. We are now continuing this socially and environmentally focused work through SocialBox.biz while providing practical and innovative solutions to the legal, environmental, social, security and financial problems of storage and recycling.
