SAN DIEGO, CA — Extraordinary Conceptions, one of the most established and trusted surrogacy agencies in the United States, is proud to celebrate two decades of helping intended parents around the world achieve their dream of building a family. With programs starting as low as \$70,000 and matching times as fast as one month, the agency continues to set the standard for accessible, ethical, and high-quality surrogacy.

Extraordinary Conceptions has built its reputation on a single principle: every family deserves access to compassionate, world-class surrogacy services regardless of budget or location. Today, the agency offers one of the most comprehensive program portfolios in the industry, spanning the United States, Canada and Mexico.

Two Decades of Trust, Thousands of Families Built

Over 20 years, Extraordinary Conceptions has guided intended parents through every step of the surrogacy journey — from matching with a surrogate to navigating international legal requirements with the same warmth and personal attention that has defined the agency from day one.

Spotlight: The Cross-Border Embryo Program

One of Extraordinary Conceptions' most innovative offerings is the Cross-Border Embryo Program an industry-first solution designed for international intended parents who want the best of both worlds. Embryos are created through IVF at elite clinics in the United States or Canada, then safely shipped by specialized couriers to top-tier fertility clinics in Mexico or Colombia, where the surrogacy journey continues at a fraction of the cost.

This unique approach means intended parents receive US-standard embryo creation quality combined with the affordability of Latin American surrogacy — starting at \$80,000 all-inclusive with IVF and legal costs included.

The program includes:

- Embryo creation with top US or Canadian IVF clinics
- Secure, compliant embryo shipping to Mexico or Colombia
- Embryo transfer with leading Latin American fertility specialists
- Comprehensive legal coverage for all parties
- VIP on-site concierge support throughout the journey
- Multilingual coordination in English, Spanish, French, German, Italian, Portuguese, and Chinese
