

Fabrica Gallery's Autumn Exhibition: Care(less). VR Immersive Exhibition

Wednesday 25 September, 2019

This autumn Fabrica will be premiering Care(less), an immersive virtual reality experience by Lindsay Seers. In this 360° film work, Seers explores the hallucinatory effect of VR. We are drawn into a state of the aged: a state in which we can quickly become invisible.

The artwork and its accompanying texts and programme of talks, film screenings and activities investigate prevalent attitudes to ageing, the nature of care relationships and ways in which the social care system meets care needs.
