Fight children trafficking: I AM CREATOR is hosting a virtual event to raise funds for Stella's Voice

Thursday 26 November, 2020

Together we can support those victims in rebuilding their lives, and hopefully, one day, it will be stopped altogether.

I Am Creator's Founder, Sri Akarshana's Youtube Channel, has hit ONE MILLION subscribers. They decided to use this opportunity to extend a helping hand and, with the community, make a difference together. On the 5th of December, Project 1 Million will be held to raise awareness of sex trafficking and children's exploitation. All the funds collected, after the administration fees, through Project 1 Million will be given to Stella's Voice.

"In the next 30 seconds, a child will be sold into sex slavery."

Hosted by Lucie England, Project 1 Million will be supported by international influencers: Alfie Sheard, Mei-Lan Maurits, Master Wong, Grand Master Akarshar, and Master Sri Akarshana.

£1 will be donated For Every Person Who Attends Project 1 Million

Master Sri Akarshana will donate £1 to Stella's Voice for every person that joins in Project 1 Million and support our event throughout.

"In this meaningful event, beautiful souls from around the world come together to help the innocent affected by trafficking. I believe if all of us can take a moment out for the special cause, we can come together in love and unity to heal the world", says Master Sri Akarshana.

Stella was put out of the orphanage at 16 years of age and tragically died of AIDS at the age of 19 as a result of being trafficked. Stella will never speak again – her voice has been silenced, but we have determined that we will be 'Stella's Voice' and do all that we can to prevent this from happening to others.

Stella's Voice gives children going through the trauma a second chance; a home where they can complete their education and acquire life skills so they can learn how to stand on their feet again.

ABOUT STELLA'S VOICE

At Stella's Voice, we work to prevent vulnerable young people in Moldova from being trafficked.

This is how we do it...

First, we remove the vulnerability – and we do this by providing them with a place to stay. A roof over their head, clothes on their back, and food in their bellies. Somewhere safe and secure that they can call home.

Then we help them with their education. Assisting them through school, college, and university or vocational training, and teaching them life skills. Teaching them how to look after a home, prepare and cook food, clean, do laundry, etc. Along with the practical things we do, we help them find hope again - dream and give them a future.

Our goal is to get the young person to the point where they are ready to leave us, move into their own home, know how to run a household and look after themselves, hold down a good job and take care of themselves. We work to make ourselves not needed by them.

Of course, we stay in contact with them once they leave and are there for support if it's needed.
