- Recognized as an **'Innovator' in CX Improvement Capability and Overall segments**
- Targets substantial growth, emphasizing joint investment in innovation, technology, and consulting
- Specialized **domain-specific offerings in healthcare CX, advanced sales, and retention practices**
- Expertise in **agent assist GenAI technology** for enhanced outsourcing client experience

Ashish Chawla, President – CX & Consulting, Firstsource, said, "We are thrilled to receive acknowledgment for our impactful contributions to clients and our adept utilization of disruptive technology for swift and effective value delivery. Being recognized as a 'Leader' and an 'Innovator' in the NelsonHall NEAT evaluation validates our capabilities. With our extensive expertise in customer experience, data insights, and optimizing technology implementations, we are strategically positioned to be a key partner in our clients' CX transformation journey. Committed to leveraging cutting-edge technology, we are establishing a research and incubation center to showcase advanced capabilities in data insights, conversational AI, generative AI, and the Metaverse for our current and prospective clients."

Ivan Kotzev, Lead CX Services Analyst, NelsonHall, said: "Most organizations have made sizable CX technology investments over the past years and are now looking for strategic partnerships to optimize their ROI and future-proof their customer service operations with reduced CAPEX. Firstsource addresses this market need with strong domain-specific offerings, particularly in healthcare, experience in agent assist platforms using GenAI, and broad technology partner ecosystem."

NelsonHall's profile of Firstsource recognizes Firstsource for its conversational AI, GenAI, and analytics technology ecosystem, coupled with its implementation capability. Recognizing their strategic leverage of platforms and forging key partnerships, the report underscores the company's robust plans for expansion across key geographies. It acknowledges Firstsource for collaborating with partners to benchmark, construct custom AI solutions, and integrate and operationalize them. Notably, their GenAI starter kit, featuring four use-cases, is identified as an example of innovative initiatives in this field.
