Fizyr and Yaskawa Europe Announce New Partnership with Bonetto Automation

Tuesday 24 June, 2025

Bonetto Automation will leverage Yaskawa robotics and Fizyr PANOPTIC™ vision AI to expand its suite of highly reliable turnkey production automation solutions

AUTOMATICA 2025, MUNICH, GERMANY – (June 24, 2025) – Fizyr, providing the world's most capable vision AI, and Yaskawa Europe, one of the world's leading manufacturers in the fields of drive technology, industrial automation and robotics, have signed an agreement to deliver tailor made production automation solutions with Bonetto Automation, a Bonetto Group company that provides turnkey production automation solutions. The new partnership automates item picking, parcel induction, depalletizing, detection and trailer unloading for Bonetto Automation customers and also includes training and support.

"As Bonetto Automation is developing new solutions to enter the logistics sector, our goal is clear: to bring in the most advanced technologies from day one," said Francesco Fraschetta, sales director for Bonetto Automation. "Our partnership with Fizyr and Yaskawa marks an important milestone on this path. Fizyr's technology perfectly empowers our approach, rooted in innovation and flexibility, allowing us to design smart, modular automation systems that deliver real competitive advantages to our customers and accelerate our vision for next-generation logistics automation."

With Bonetto Automation, Fizyr and Yaskawa Europe further their go-to-market strategy and expand on the long-standing and successful collaboration between Bonetto Automation and Yaskawa Italy.

"This partnership marks a bold move toward the future of smart, efficient robotic automation in high-tech goods production," said Tibor van Melsem Kocsis, Fizyr's chief commercial officer. "Bonetto's experience, expertise and customer base perfectly complement our relationship with Yaskawa and unite with us in a collective effort to reliably automate the world's most complex production tasks."

All three companies are present at Automatica Munich (June 24-27). Bonetto Automation is exhibiting at A6.420. Yaskawa Europe is exhibiting at B6.502, where demonstrations will include Fizyr PANOPTIC™, Fizyr's advanced vision AI.

About Fizyr

Fizyr provides the most capable vision AI for high-variance automation. Fizyr PANOPTIC™ is the smartest, fastest and most effective vision available, maximizing robotic capabilities. Compatible with all major robotics systems on the market, Fizyr PANOPTIC™ enables robots to see, perceive, account for variances, learn and perform more successfully than any other robotic vision. Fizyr partners with top integrators to ensure the highest levels of accuracy and performance. https://fizyr.com

About Yaskawa

Yaskawa is one of the world's leading manufacturers in the fields of drive technology, industrial automation and robotics, always striving to optimize the productivity and efficiency of machines and industrial systems with innovations that contribute to the advancement of social development and clean, safe and sustainable workplaces. https://www.yaskawa.eu.com

About Bonetto Automation:

Bonetto Automation develops next-generation robotic solutions engineered for precision, adaptability, and scalability. Specializing in custom-designed robotic systems for highly dynamic contest, Bonetto Automation integrates cutting-edge technologies to optimize material flows and elevate operational efficiency.

Trusted by top industry players, Bonetto is committed to redefining automation—where technological excellence turns into measurable performance. https://www.bonetto-group.com/en/
